EV-20E	20	1	0.03	0.25	1" MIP	35" x 5" x 5"	21 Lbs.

### Ultraviolet Disinfection Facts

1. U.V. is more effective against viruses than chlorine.
2. U.V. is environmentally and user friendly, with no dangerous chemicals to handle or store, no risks of overdosing.
3. U.V. is extremely economical, hundreds of gallons may be treated for each penny of operating costs.
4. U.V. treatment does not change the taste, odor, pH, or conductivity nor the general chemistry of the water.
5. U.V. systems are easy to install with only two water connections and a power cord.
6. U.V. systems are compatible with all other water treatment products; R.O. filtration, water conditioning, and softening.
7. U.V. systems are easy to maintain with periodic cleaning, and annual lamp replacement.
8. U.V. systems operate with no moving parts to wear out, making them one of the most effective and durable water treatment systems on the market.

**Solenoid**- Optional fail safe shut-off valve.  
(To be used with U.V. Monitor System)
