

Filters Series 5600

Depending on your media selection, the HYDROFLO Automatic Filter will remove unappealing iron stains and sediment on fixtures that over time can lead to clogged pipes, and permanent damage to your valuable appliances. Chlorine and other odor producing chemicals will also be filtered leaving your water sparkling clean and tasting great.

- **Standard Bypass Valve allows for ease of installation & service**
- **High Flow Distribution System**
- **Automatic 12 Day Control Valve**
- **Polyglass Mineral Tank NSF Approved**

MADE IN U.S.A.
