

A Quality Fully Automatic Neutralizer

The **Hydroflo TNFA 15 Automatic Neutralizer** is your solution to eliminating blue-green stains. These stains are caused by acidic water (pH levels below 7.0) corroding copper plumbing.

When the TNFA 15 is installed with 1.5 cubic feet of Hydroflo Calcite pH levels between 5.8-6.5 are neutralized to about 7.0 and leaky fixtures and plumbing, along with blue green-stains are gone.

Features Include:

- 💧 Non-Corrosive poly mineral tank.
- 💧 Six Day Controller—easily programmed to family demands—guest switch for extra demand.
- 💧 Automatic Bypass—water available even during regeneration.
- 💧 Top Quality Long Life Neutralizing Media (Hydroflo Calcite, not included).
- 💧 Convenient Dome Hole with cap for accessibility when replacing media.

TNFA 15 Control

It is a 3 cycle filter control with a backwash, purge and service cycle. Eliminating steps not needed in filters requiring backwash only.

The 1256 Noryl Bypass is included

Specifications

TNFA 15

Mineral (Cu. Ft./Lbs.)	1.5/140
Mineral Tank Size	10" x 54"
Service Flow (gpm)	5
Backwash Rate (gpm)	4.0
Pipe Size	3/4"
Max. Pressure (psi)	125
Max. Temperature, F°	100°

All neutralizers raise hardness 1-3 gpg, therefore, we recommend the TNFA 15 be followed by a Hydroflo automatic water conditioner.

Hydroflo Calcite in the TNFA 15 is sacrificial and must be replenished as needed.
